PUBLIC PARKING AT CAPACITY AT REAGAN NATIONAL AIRPORT

Motorists Urged to Use Alternate Transportation

The Metropolitan Washington Airports Authority is advising motorists who are planning to drive and park at Ronald Reagan Washington National Airport today (Wednesday, April 4) and tomorrow (Thursday, April 5) to check ahead before coming to the Airport. A surge in seasonal travel is affecting the availability of parking spaces at Reagan National.

Parking lots and garages are currently at capacity.

The 24-hour number to call for current parking information is 703-417-7275 (or 703-417-PARK). Real-time parking information is also posted on our website at www.mwaa.com.

Travelers are encouraged to take Metro—which provides direct service to Reagan National—take a taxi or make other arrangements to arrive at the Airport instead of driving and parking here.
