Reagan National Offers New Valet Parking Service ***Door-to-Door Service Allows Customers to Reserve Parking Space in Advance***

The Metropolitan Washington Airports Authority is pleased to announce a new valet parking option at Ronald Reagan Washington National Airport. The new 230-space Valet Parking Lot, located between Garage A and Terminal A, opened on November 13.

“The new Valet Parking service provides an easy and efficient option for travelers to park their vehicles at Reagan National Airport,” said James E. Bennett, President and CEO of the Metropolitan Washington Airports Authority. “Simply call 703-417-1234 to reserve a parking space and we’ll be waiting for you when you arrive at the Airport.”

Customers are encouraged to reserve a parking space in advance by calling 703-417-1234. A dedicated “Valet Parking” shuttle van will transport customers directly to the terminal entrance of their airline once they drop off their vehicles in the Valet Parking Lot. This door-to-door service is also available to take customers back to the Valet Parking Lot when they return from their trips.

Valet Parking at Reagan National costs \$40 for the first day, \$30 for the second and third days each, and \$25 for each additional day after that. For more information on Valet parking, please visit www.mwaa.com/reagan and click on the “Valet Parking” button.

The Airports Authority would also like to remind all travelers who drive and park at Reagan National to check current parking availability before heading to the Airport. Visit www.mwaa.com/reagan for real-time information on parking availability and on new parking rates. Or call 703-417-PARK (that’s 703-417-7275) to speak with a parking representative 24-hours-a-day.
